ELECTRIC FIREPLACE SUITES

THE ULTIMATE CONCEPT IN FIREPLACE DESIGN

THE ULTIMATE CONCEPT IN FIREPLACE DESIGN

These are the most advanced marble suites available today. Produced using our new Seamless Jointing Method means they appear to be made from solid blocks of marble. They are designed to sit against a flat wall with no rear opening required.

Available in a choice of micrograin marble colours with fire options as shown.

The electric fires are supplied by leading manufacturers using the latest technology, allowing you to adjust the flame effects to suit your mood.
